Driver Safety

With everything from an assist button to a fatigue alert system to driver behaviour reports, we keep your drivers safe on the roads, and make sure they're driving safely too. Better driver behaviour can reduce accidents and maintenance costs and keep your business moving smoothly.

Business Optimisation

Tailor-made fleet management solutions will optimise your business, through smarter, safer and more cost-effective operations.

Value Added Services

Value Added Services add that extra layer of safety and protection, so that you are always prepared for anything.

TRACKER CONNECT

Tracker Connect is a comprehensive fleet-tracking solution, giving the most accurate view of your fleet from anywhere and everywhere.

Using your computer or tablet, you can request monthly reports, set zones, and allow your drivers to notify you in an emergency with an assist button.

Tracker receives notifications at the same time as you, so our team can act swiftly if they detect any problems that need addressing.
