**Re: Important notice concerning RICA compliance as it pertains to
Tracker's GSM-GPS devices**

Dear valued client,

This letter serves to confirm that all current SIM cards held within our GSM-GPS tracking devices have already been registered with RICA (Regulation of Interception of Communication Act) and are fully compliant with the law.

As the SIM cards are registered to Tracker, there is no registration required on your part.

We thank you for your ongoing and loyal support.

Sincerely,

Tracker
