

To care is to protect.

Business Fleet Tracking

Taking care
of business

What drives us?

We'd like to help you take care of business. We understand that it's not just what information your business has, but how it uses it that makes a real difference. We've designed our products specifically to turn information about the way your business vehicles are used, into services that help you get to where you are going, in smarter, safer and more cost-effective ways.

Always Visible.

With near real-time tracking, you'll have complete visibility of your fleet through various platforms, giving you accurate updates on arrival and departure times, as well as the status of jobs in progress.

Always on Time.

Our Job Scheduling and Dispatching feature helps you improve the service to your customers by plotting driver routes, scheduling expected delivery times, call times on sites, arrivals and departures.

Always Secure.

Our Theft Retrieval service consists of highly-trained recovery teams with an extensive partnership network of vehicles and aircraft. You can also enjoy added levels of security with cargo door, fuel cap, and passenger door sensors that alert you of any suspicious activity.

By making every drive easier, safer and more efficient, we give your business the freedom to thrive.

Tracker, taking care of business.

Connect Lite

Track all your vehicles, at the right price.

Tracker Connect Lite provides you with the essential tools to monitor your vehicles, with a dot on the map and near real-time tracking online using your computer, tablet or smartphone. This service is ideal for the business owner who doesn't have a large fleet of vehicles, and wants to keep things cost-efficient.

Features and benefits

Reports

- 1 Trip Log (Detailed)**
View time-captured, street-by-street, turn-by-turn activity of your vehicles.
- 2 Trip Log (Summary)**
View total hours spent on the road and kilometres driven by your vehicles.
- 3 Trip Logbook**
Capture separate trip information for both private and business use of your vehicles.
- 4 Notifications**
Report of all the notifications you have set-up.

Zones

Through an interactive map on Tracker's web interface you can create, edit and monitor safe zones and no-go zones for each of your vehicles. The moment your vehicle leaves a safe zone or enters a no-go zone, you'll be notified.

Early Notification

If your vehicle is towed without your permission, has its power supply interrupted, enters a high risk area or approaches a border, we can send you an automatic notification. Depending on which Tracker product you choose, there are more notification options available for set up. (SMS charged @ standard rates and email is free)

Health Check Service

Tracker is able to remotely check if your fitted devices are working properly.

SMS Car Gaurd

Allows your driver to digitally "lock" the position of your vehicle. If it moves before it is "unlocked", the driver will be notified by SMS (Standard SMS rates apply).

Roaming

If your vehicles are going to leave South Africa, you can request that we activate roaming so you can continue to track the vehicle in neighbouring countries.

SMS Position Request

Using SMS Position Request (SPR), you can request and receive the location of any of your vehicles via your cell phone. (Standard SMS rates apply)

Theft Retrieval

If your vehicle is stolen or hijacked our National Emergency Centre, with the cooperation and assistance of the SAPS, is able to locate and secure your vehicle, and apprehend the thieves.

To care is to protect.
