TRACKER ECO DASHCAM

Two Views. Smarter Decisions. Better Fleet Control.

The Eco Dashcam gives fleet operators clear visibility of both the road ahead and activity inside the vehicle, helping businesses manage risk, improve driver behaviour, and maintain operational control. By combining reliable video evidence with actionable insights, you can make informed decisions, strengthen accountability, support compliance, and reduce unnecessary operating costs.

The result is greater operational oversight, improved driver accountability, stronger compliance management, and reduced exposure to accidents, disputes, and false claims. With clear, objective video records and actionable fleet intelligence, businesses can make faster decisions, enhance safety, and operate more efficiently while keeping costs under control.
